U.S.-Peru Trade Promotion Agreement Virginia Farmers Will Benefit

November 2007

The U.S.-Peru Trade Promotion Agreement (PTPA) provides increased market access to Virginia's agricultural exports by making agricultural trade a two-way street and leveling the playing field with respect to third country competitors in the Peruvian market. With immediate elimination of duties on nearly 90 percent of current U.S. trade to Peru, the PTPA will provide Virginia producers and exporters the opportunity not only to preserve but to increase market share in Peru. The American Farm Bureau and over 40 other agricultural industry and farm groups strongly support the agreement stating that the agreement would benefit all U.S. agricultural sectors and allow the United States to become a competitive supplier of agricultural products to Peru.

Exports of farm products boost Virginia's farm prices and income. Such exports support about 7,000 jobs both on and off the farm in food processing, storage, and transportation. Agricultural exports amounted to \$588 million and made an important contribution to Virginia's farm cash receipts in 2006 that totaled \$2.7 billion.

Poultry. Providing the largest source of farm cash receipts and the second largest source of agricultural exports in the state, Virginia's poultry producers benefit from the PTPA.

- Peru will provide immediate duty-free access on chicken leg quarters, which currently faces a 25-percent duty (30-percent allowed by the World Trade Organization (WTO)), through a 12,000-ton tariff-rate quota (TRQ) that expands by eight percent compounded annually. Peru will phase out the 25-percent over-quota tariff over 17 years with no reductions during the first eight years.
- Peru will phase out duties on poultry products, such as wings and breast meat, over five years and on mechanically separated meat over two years. Most tariffs on turkey products will be phased out over five years.
- Peru will immediately eliminate duties on live chicks and hatching eggs and will phase out duties on eggs for consumption over ten years.
- Peru agreed to continue to recognize the equivalence of the U.S. meat inspection and certification system.
- *The National Chicken Council, the USA Poultry and Egg Export Council, the National Turkey Federation, the United Egg Association, the United Egg Producers, and the Pet Food Institute publicly support the PTPA.*

Beef. As the third largest source of farm cash receipts and largest export source of live animals/meat, Virginia's ranchers and beef industry benefit from the PTPA.

- Peru will immediately eliminate the 25-percent duties (30-percent allowed by the WTO) on the beef products of most importance to the U.S. beef industry – Prime and Choice cuts.
- U.S. exporters of variety meats (offals) will immediately receive duty-free access under a 10,000-ton TRQ that will grow six percent compounded annually. The 12-percent over-quota tariff will be phased out over ten years.
- Peru will provide immediate duty-free access for U.S. exports of standard quality beef through the establishment of an 800-ton TRQ that will grow six percent compounded annually. The 25-percent over-quota tariff will be phased out over 11 years.
- The United States will phase out its beef tariffs over 15 years except for those tariffs that are already duty-free under the Andean Trade Promotion and Drug Eradication Act (ATPDEA). The PTPA will continue the duty-free treatment.
- Peru agreed to continue to recognize the equivalence of the U.S. meat inspection and certification system to its own system.
- *The American Meat Institute, the National Cattlemen's Beef Association, the National Renderers Association, the U.S. Meat Export Federation, the US Hides, Skin and Leather Association, U.S. Livestock Genetics Export, Inc., and the Pet Food Institute publicly support the PTPA.*

Wheat. As the largest source of state agricultural exports, Virginia's wheat producers benefit from the PTPA.

- Peru will immediately eliminate the 17-percent tariff (up to 68 percent allowed by the WTO on certain wheat products) wheat imports from the United States.
- Peru will immediately eliminate tariffs on processed wheat products.
- *The National Association of Wheat Growers, the National Grain and Feed Association, the National Grain Trade Council, the North American Export Grain Association, the Wheat Export Trade Education Committee, the North American Millers' Association, and the American Bakers Association publicly support the PTPA.*

Dairy. Providing the third largest source of farm cash receipts, Virginia's dairy producers benefit from the PTPA.

- Under the PTPA, Peru will immediately eliminate its system of variable levies (price bands) facing U.S. exporters. Under the system, tariffs can be as high as the WTO ceiling of 68 percent on some dairy products.
- Peru will immediately eliminate tariffs on whey.
- Both Peru and the United States will establish duty-free TRQs for certain dairy products totaling 10,000 tons.
- TRQs will grow by ten percent compounded annually, with certain dairy products subject to safeguards during the tariff phase-out period.

- All Peruvian duties on dairy products will be eliminated within 17 years, with duties on some dairy products eliminated earlier.
- *The National Milk Producers Federation, the U.S. Dairy Export Council, the Grocery Manufacturers of America, the International Dairy Foods Association, and the Food Products Association publicly support the PTPA.*

Apples. Virginia's apple producers, with farm cash receipts of over \$22 million, benefit from the PTPA.

- Peru currently charges 25 percent duties on U.S. apples, and under WTO rules, Peru could raise these duties to as high as 30 percent.
- Peru will immediately eliminate duties on apples.
- *The U.S. Apple Association publicly supports the PTPA.*
